

PIPELINE & DRAINAGE SYSTEMS PLC

DEVELOPING PIPELINE AND DRAINAGE SOLUTIONS

A range of lightweight composite covers and frames

EnviroCover

- A range of light weight Composite covers and frames
- Water tight seal
- Three point locking
- Anti-slip
- Tested to BS EN124 C250/D400 BS EN124 PAS 26

ENVIROCOVER

A Range of lightweight, high strength composite covers & frames aimed at the petrol forecourt industry where a heavy duty cover a one man lift and non spark properties are essential requirements.

The covers & frames are available in a range of sizes including.

600mm Circular Watertight & Locking

600mm x 600mm Watertight & Locking

750mm x 750mm Watertight & Locking

900mm Circular Watertight & Locking

900mm Circular C/W Inspection Hatch Watertight & Locking

We also have smaller covers & frames available in a non sealed format from **450mm x 450mm** to **600mm x 600mm** (Load class B125/C250).

Performance

All watertight covers are independently load tested to BSEN124 C250 and BSEN124 PAS26 D400.

The material is anti-static and the covers tested which show a low surface resistivity.

The lids have a unique anti-slip pattern, essential where pedestrians may have access .

A watertight seal is achieved by a ring seal which is secured within a groove within the frame.

A three point locking system ensures the covers are secure once installed.

Removal is simple and easy by use of the standard Envirocover lock & lift key or with a wheeled lifter. Anti-rotating lugs resist lateral movement to the locking assemblies during traffic loads.

Quality Assurance

Both PDS and our manufacturing plant share the same ISO9001 quality management systems and are certified to this standard by Lloyds Register Quality Assurance (LRQA).

This certification is further accredited by UKAS (United Kingdom Accreditation services).
